Spend less time fighting technology and more time growing your business

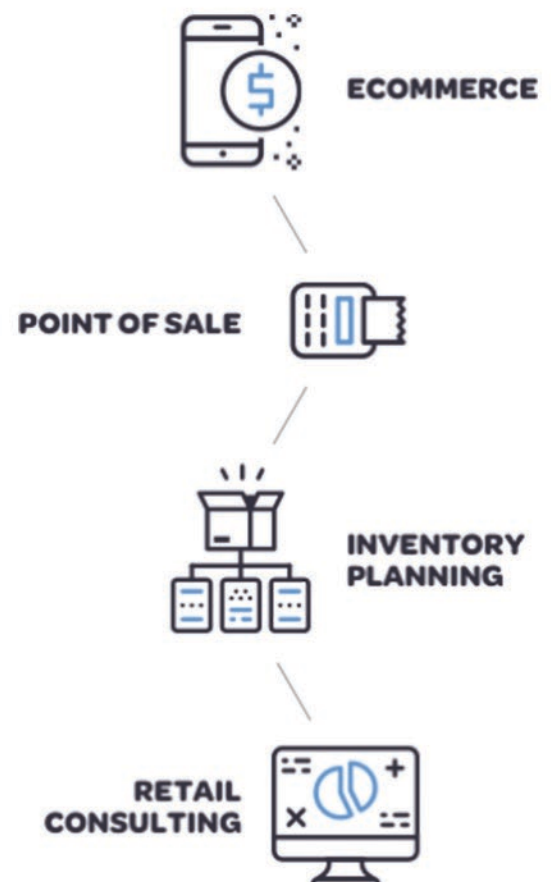

If you are running a Retail Business, Restaurant or bar, you know the pressure of having multiple systems - to keep your business operating. Your ecommerce site, Inventory, Point of Sale and Payment Systems, as well as Internet.

If Something does go wrong, you then have a list of vendors to contact, to have your issues addressed. This is time consuming, and does not always result in your issues being fully resolved.

We eliminate this inconvenience.

Our team's experience, and skill set allows us to handle the unique challenges of your business, whether you have a single or multi-store environment.

We work to simplify these systems as much as possible, to allow you to focus on what you are most passionate about in your business.

Quick Tip. With our software your cellphone has just become your mobile POS unit.

We are POS experts that will help you master all aspects of your business.

Unlike other POS resellers, our expertise addresses all of the unique challenges that retailers/Restaurants must face to run a business – including point of sale, ecommerce, payment processing, network support, and inventory control.

Our Process

Our process is tailored to meet your unique needs, but the milestones are always the same.

1. Roadmap

We are not going to recommend systems to you, which you do not need. We look at the bigger picture of where your business is currently, and where it needs to go - and help you choose the best Point of Sale option.

3. Implementation

Once we know the exact solutions which will work best for your business, our focus is to have all these systems running efficiently to save you time, and avoid distractions in the everyday running of your business.

2. Training

Once your new systems are in place, we will train you, and your team how to use them efficiently, including Day to Day operations, as well as running vital Reports and Analytics.

4. Support

If you do encounter issues with your Point of Sale System, ecommerce site, or network – we will be there to help you! We offer ongoing 24/7 support to keep your business running efficiently.
